

# Stainless Steel Cleaner & Polish

## Limpiador y Pulimento de Acero Inoxidable

### Technical Data

#### Description

This stainless steel cleaner and polish maintains a bright, clean finish on equipment in kitchens, laboratories, offices, restaurants and other institutional applications. It is excellent for use in elevators and on architectural steel. Labor saving, one step formula shines as it cleans, leaving a soil resistant coating that makes future clean-ups an easy task. Pleasant fragrance.

- Ready-to-Use ..... Convenient
- One Step Formula ..... Labor Saving
- Safe on Metal Surfaces .....  
..... Protects Facility Investment
- Resists Resoiling ..... Labor Saving
- Pleasant Fragrance ..... Pleasant to Use

#### Specifications

Available Sizes ..... 12/32 oz.  
Physical State ..... Liquid  
Color ..... Clear  
Fragrance ..... Lemon  
Foaming ..... N/A  
Free Rinsing ..... N/A  
Petroleum Distillates ..... Yes  
Phosphates ..... None  
Viscosity ..... Thin  
Specific Gravity ..... 0.76  
pH (undiluted) ..... N/A

#### Directions

Wear safety equipment recommended on MSDS, read all directions and cautions prior to beginning your work.

Shake before use to ensure best results. Spray sparingly over surface to be polished. Can also be applied by cloth. Wipe clean with a damp cloth. Heavily soiled surface may require repeat application or "dwell time" of up to a minute on the surface before wiping. Polish to a bright finish with a clean, dry cloth.

For stainless drinking fountains that have a build up of minerals, lime or hard water deposits – use a mineral scale remover to clean prior to polishing.

#### What the Pros Know

Most stainless steel has a fine "grain" to it. When cleaning and polishing stainless surfaces, the finishing strokes should always go with the grain for best results.

**Removes  
Dirt**

**Easy to Use**

**Protects Surfaces  
from Resoiling**
